SKILLS

Web Technologies:

HTML5, CSS3, SCSS, Bootstrap, React JS, Context API, Redux, Redux-Saga, React Query, Zustand, JavaScript, TypeScript, NodeJS, Express.js, MongoDB, Jest, React Testing Library and Responsive Web Design.

Soft Skills:

Problem-solving, Debugging, Teamwork, Time Management, Cross-Functional Collaboration.

PROJECTS

Tic-Tac-Toe | HTML, Sass, JavaScript, React

URL: [github.com/narmadharajendran/](https://github.com/narmadharajendran/Tic-Tac-Toe)

Tic-Tac-Toe

Built a single-player and multi-player Tic-Tac-Toe game with responsive UI and clean state management.

Personal Portfolio | HTML, Sass, TypeScript, React, Zustand

URL: [github.com/narmadharajendran/](https://github.com/narmadharajendran/My-Portfolio)

My-Portfolio

Designed and deployed a personal portfolio website showcasing skills and projects, implementing global state management with Zustand to improve data flow and user experience.

NARMADHA RAJENDRAN

SENIOR SOFTWARE ANALYST

Highly skilled Front-End developer with 7+ years of experience in designing, developing and maintaining responsive web applications. Proficient in HTML, CSS, JavaScript and TypeScript, with deep expertise in ReactJS and Redux for state management. Experienced in developing full-stack solutions using NodeJS, Express.js, and MongoDB. Strong problem-solving skills and a passion for optimizing performance and user experience. Seeking a new role to leverage my technical and leadership skills in delivering high-quality solutions.

EXPERIENCE

SENIOR SOFTWARE ANALYST | AGILYSYS

Nov 2020 – Present

- Developed POS Kiosk and OnDemand food-ordering applications with multi-theme and template support in React.js, increasing product adaptability and client adoption.
- Designed and delivered Full Service (in-restaurant ordering & payment) and Smart Menu (contactless menu viewing), improving usability and customer satisfaction.
- Designed and implemented reusable, modular components in React significantly improving code maintainability and development speed.
- Worked independently within a team setting to deliver critical React modules, contributing to feature rollouts and improving project timelines.
- Mentored junior developers through code reviews, pair programming, and technical guidance, strengthening team expertise and collaboration.

SOFTWARE DEVELOPER | TEEZLE

Jul 2018 - Oct 2020

- Created IoT-based solutions for real-time industrial and vehicle tracking, increasing operational visibility and enabling faster decision-making.
- Delivered a responsive real-time monitoring dashboard to improve sensor data tracking, alert management, and system stability.

EDUCATION

Bachelor of Engineering in Computer Science | National Engineering College, 2018 | CGPA: 7.96.
